VOLUME XIV — THE CLEARFIELD PROGRESS, CLEARFIELD, PA. MONDAY EVENING APRIL, 12, 1920 — NUMBER 231

SWITCHMENS STRIKE FASTLY SPREADING IN EAST PHILADELPHIA YARDS BADLY TIED UP THIS P. M.

MUCH DEPENDS ON ACTION OF ELEVEN BIG BROTHERHOODS

BIG MEETING AT KANSAS CITY TO FORMULATE PLAN OF CAMPAIGN AGAINST TROUBLESOME RUNT UNION

GOMPERS PREDICTS ITS FAILURE

PHILADELPHIA, Pa., April 12—The Pensylvania Lines were badly handicapped here today when several thousand switchmen and yardmen joined the ranks of the "rebel" union. Estimates of the number of men on strike in this district run as high as fifteen thousand but railroad officials put it at seven thousand. No trains left on the New York division this morning until eight o'clock and then four trains were made up into one. Traffic is virtually suspended.

CLEVELAND, Ohio, April 12—A committee of the striking switchmen called upon Bliss Morton of the Department of Justice here today to lay their case before him. The spokesman declared that "the strikers did not wish to attempt to intimidate the government but that they did wish the government to intervene in the strike simply in order that wages be advanced to meet living conditions. The committee declared that the striking men would abide by any adjustment made by the government. The spokesman said "this is not a strike. It is just a case of thousands of men quitting their jobs because of their inability to get a living wage."

The strike of railroad employees continues to spread in the East today. Reports from the west show it to be at a standstill Only Cleveland, however, reports men returning to work. Officials of eleven big railroad unions will meet at Kansas City today to decide on what action to take to "down" the rebel union of switchmen. There is a possibility of surrender to the radicals and endorsement of their strike. A careful canvass indicates that there is no immediate danger of a food shortage any place owing to the strike. The fuel situation is more serious. The big steel mills at Youngstown, Gary and Buffalo are at a standstill. Both passenger and freight traffic is crippled in the New York district There is very little freight moving.

Thirty-six thousand men on strike is the most conservative and accurate estimate available today. This number includes the marine men, firemen and a few enginemen who are on strike in the New York district. About New York is the only district in which firemen and enginemen are out. The Pitcairn and Wilkinsburg yards of the Pennsylvania lines are affected today.

CLEVELAND, Ohio, April 12—President Lee of one of the "big four" brotherhoods and Samuel Gompers, President of the American Federation of Labor both predicted today that the switchmen strike will break up soon. They based their predictions on reports from loyal union men from all over the nation.

WASHINGTON, D. C., April 12—Possibly overnment action to end the railroad strike apparently centered on President Wilson today. Secretary Tumulty, after a long conference with the President at the White House today telephoned to Attorney General Palmer in regard to the conversation.

Chairman Cummins, of the Senate Interstate Commerce Committee and the Vice President of the Brotherhood of Railway Trainmen had a long conference this afternoon relative to the strike situation. Cummins announced that he had been assured that the wage board set up under the Esch-Cummins law would be appointed either today or tomorrow. He will call a meeting of the Interstate Commerce Committee at once to go over the problem and is expected to offer an amendment to the law which will permit the wage board to go into session at Washington at once. The present law provides for the sessions of the wage board to be held at Chicago.

CHICAGO, Ill., April 12—The great railroad strike is today at a cross roads. Officials of eleven big railroad unions are to meet at Kansas City today to decide on a policy in dealing with the unusual situation created by the action of a "rebel" union which is making inroads on regular organized labor. The brotherhoods must fight shoulder to shoulder with the railroads or surrender to the radicals who have formed a new union The officials of the eleven big unions who will meet today will either decide to enforce the rule that no strikes be called before having the sanction of the brotherhoods and line up solidly against the new organization or declare for 'one big union" of all rail employees and thus bow to the will of the radicals The success of the strike in the east where it has gained so many new adherents will have its effect on the more timid ones in other sections and result in even more men being out by the break of another day.

STATE OF SONORA BREAKS WITH THE CARRANZA GOVEM'T

AGUA PRIETA, Sonora, Mexico, April 10—The Sonora state congress convened in secret session at Hermosillo today, repudiated the Mexican central government and adopted a reslution declaring the state would take steps to resist any invasion by troops or infringement of state rights attempted by the Carranza government, according to Fernando Mendoza, who made the announcement here today.

NOGALES, Sonora, April 10—Governor de La Huerta, of Sonora, in a telegram to General Salvador Alverdo here today said:

"In view of the replies of President Carranza to the governor and congress of the state of Sonora it was decided to suspend relations with the central government, until such a time as the causes leading to the determination had ceased to exist."

The state authorities of Sonora had called upon Presiident Carranza to halt the mobilization of federal troops within Sonora They charged the Mexican president was plotting to establish a military dictatorship in the state and take over the state government. It had been openly charged that was a plot against the presidential candidacy of General Obregon. Carranza answered the state authorities that he had no such intention, but that the troops were being ordered to Sonora for the general welfare of the county

Sonora state authorities immediately set about preparing to seize the customs house and other Mexican federal properties here after they were advised of the state breaking relations with Carranza.

"HEMLOCK SPECIAL" WOULD MAKE EVEN A PREACHER SWEAR

Traveling on the "hemlock special" over the Tyrone and Clearfield branch of the Pennsylvania railroad is fast becoming a nightmare and the service we are getting, from one cause and another, is a positive detriment to Clearfield.

The train due here at 6.45 Saturday evening was more than three hours late, while the 11 20 did not get here until about 4 o'clock. If, as the patent medicine man says, "there is a reason," for the love of Mike let us find the dern thing and have it remedied.

That "hemlock special" has passed from the joke to the painful period, with the traveling public in that state which one of the Vanderbilt's consigned them to long ago. However, if that be so, and we gues it is, we beclamned if we see how the fellow responsible for the service and lack of accomodations we are having foisted upon us gets any pleasure out of the proceedings

Last week one day the smoker on the "special" caught fire coming out of Curwensville. Some fellow had dropped a cigarette stub in a corner and the "dud" soon had a merry little blaze going as the train bumped along into Clearfield. The ancient time-cured hemlock burned and snapped like Bob Ingersoll's coffin, after he had safely sailed across the Styx and slid down the shoot into furnace No. 1. The conductor succeeded in dousing the flames with water from the drinking tank just before North Clearfield station was reached and the car is still in service

This private ownership business as we understand it on this branch and with traveling on this "hemlock special" is what Gen. Sherman understood war to be, and its hell enough, we'll say.

CARNWATH MINE IS READY FOR LARGE TONNAGE INCREASE

After five years of extensive development and preparation, the Carnwath Coal Company is now in shape to greatly increase their output at the mine known as Carnwath No 3.

A fine body of the "B" seam of coal lies back of the town of Carnwath, to reach which it was necessary to tunnel through about three quarters of a mile of almost solid rock. This work, together with the installation of modern machinery and primary development, has occupied the attention of Superintendent James Gray for about five years. The mine has its own electric power plant with electric haulage system and cutting machines. Several houses are available for the increased number of miners who will be employed and the town of Carnwath promises to be even greater than it is in another year. The average heighth of coal is about four feet, but runs higher in some places. The best of working conditions prevail and this mine will be a beehive of industry this summer. Having some houses ready for new employees, the mine is in an excellent shape to take care of new men.

JUMPS FROM MAIL PLANE: BREAKS HIS LEGS AND ARMS

Two former army aviators in the aerial mail service, when flying at a height of 1700 feet, escaped death yesterday afternoon when their plane caught fire. The accident happened near Kresson, Camden county.

Richard W. Wright, twenty-three years old, of Cleveland, O., had both arms and both legs broken when he jumped from the wing of the blazing machine 200 feet from earth.

March C. Hogue, twenty-three years old, of Portland, Ore., pilot, stuck to his post and escaped injury He was thrown from his seat as the machine glided into a tree The blazing plane set fire to the surrounding woods

The Camden police ambulance was called, and the injured aviator rushed to Cooper hospital, Camden. The doctors hold little hope for recovery.

Both Wright and Hogue were aviators in the army during the war. Wright brought down three German planes. He was wounded during a flight and was regarded as a skilled operator. He joined the aerial mail service but a few days ago.

SCHOOL HEAD URGES STATE UNIVERSITY

Secommends Merger of U. of P., State College and Plit To Get Broader Results

ASKS BETTER PAY FOR TEACHER

The creation of a large state university which would meet the demands for higher education was urged Saturday by Dr. Thomas E. Finegan, superintendent of the State Bureau of Public Instruction, at the final session of the Schoolmen's week convention at the University of Pennsylvania.

Doctor Finegan pointed out that such a plan might be carried out by the amalgamation of the University of Pennsylvania, the University of Pittsburgh and State College. Those colleges would retain their individuality but would be under a central administration.

"Such an amalgamation," said the speaker, "would simplify the appropriation of the state Legislature toward the support of those institution and insure a uniformity of purpose and curriculum throughout the state.

"Millions of dollars have been given to those colleges by the state legislature. Though separated in management each is pursuing very largely the same courses of training with the exception perhaps of State College in its agricultural departments.

The Direction of Funds

"A central board of control would be able, though its knowledge of and acquaintance with the needs of each unit in the great university plan, to direct more advantageously the expenditure of the funds appropriated to each. In like manner it would impose on the state a responsibility that could not be evaded in a matter of support, thus guaranteeing more liberal financial support than now is accorded.

"I do not mean by this to underestimate the great good of the universities of this state as now in existence. They are excellent, but they have not the means with which adequately to meet the demand for education that is forced upon them. The possible other plan of the erection of a single state university would alleviate the situation also, but not to the same extent as consolidation."

Wants "Real" Superintendents

Speaking directly to the superintendents of districts Doctor Finegan said: "You superintendents should be real and genuine. You are not You are becoming administrative. It is not your fault. The state should provide sufficient funds so that you could take up your work in the right way and leave the administration to others

"I want to see many changes made in the state educational system. I want to see a minimum salary law, with a fixed initial salary and a specified annual increment such as will make the teaching profession attractive to those who are worthy of good pay. We do not need a figure on those who will not be good teachers, for we can accept the hypotheses that they will drop out of the work.

"The state today is contributing only half what it should to educational work. It is up to us therefore to undertake to organize a campaign to educate the people as to what is really needed in state legislation, that they in turn may get behind their representatives and instruct them to pass the right kind of school laws.

"It is humiliating for a teacher to have to go each year before a local board and beg for the bare sustenance on which to live. It is up to the taxpayers, who are the real gainers by the schools to get behind the teachers and see they get a living salary.

Gift of $1200 in Gold

A surprise was given Doctor Finegan just before he made his address. Dr. H. S. Weet. of Rochester, N. Y., representing the New York state teachers, was called to the platform. There he eulogized the work done by Doctor Finegan in New York and told how sorry the teachers were to have him leave.

"We have tried for some time to tell you this," Doctor Weet said to Doctor Finegan, "but, unfortunately, because of your sickness we were unable to get to you before. However, we wish to present you with this little box as a token of our esteem."

The box was opened and to his amazement Doctor Finegan found that therein lay sixty bright and shining $20 gold pieces.

Speaking along the line of reforms in the state system, Dr. Harlan Updegraff, professor of educational administration at the University of Pennsylvania, pointed out the need for a state teachers' certificate law.

Among the resolutions adopted by the convention, accepted by Doctor Finegan to be incorporated in the general state program, the following points were emphasized:

A larger general appropriation and a more equitable distribution.

That the state superintendent prepare at the earliest possible moment a comprehensive plan for a statewide educational campaign.

That the Legislature of 1921 be asked to appropriate funds to meet the transportation obligations of the rural communities.

"DRYS" ACTIVE IN KEEPING CONGRESS DRY FOR KEEPS

PHILADELPHIA, April 12. (United Press.)—The campaign by the Anti-Saloon League of Pennsylvania "to prevent the capture of the next Congress by the west,' was inaugurated here by Rev. Homer W. Tope, D. D., satte superintendent of the League, who spoke at the Fourth Baptist church. During the next few weeks, he said, addresses will be made in different sections of the state by Captain Richmond P. Hobson, Colonel Dan Morgan Smith, Sam W. Small of Georgia, Clinton N. Howard, of Rochester, N. Y., Congressman Barkely, of Kentucky and Senator Wesley Jones of Washington state.

Born, to Mr. and Mrs. Guy Hunter (nee Vinnie Myers) at their home in Jersey Shore, a ten pound girl.

Judge Bell has returned from holding court in Pittsburgh last week.

T. F. Boyle, of Buffalo, N. Y., spent the week end with friends here.

MICKIE SAYS

HOME BREW IS DEATH AGENT AT CARNWATH

Home-made Liquor Derived From Raisins, Sugar and Yeast Is Fatal To Isaac Stoker

HENDERSON MAN ALSO VICTIM

The death of Isaac Stoker, aged 59, of Carnwath, which occurred during the early hours this morning, will be the subject of a coroner's inquiry and possibly action on the part of the District Attorney.

Mr. Stoker, who has been employed in the mines of Carnwath, is a widower who made his home at the residence of Alex. Hynd. Yesterday afternoon he is said to have been invited to the house of another resident of the village, where he was offered and accepted several drinks of home made liquor. Spending some time at this home he made his way out onto the street where another resident, seeing that he was intoxicated, removed him to a nearby shanty, believing that the effects of whatever liquor he had would soon wear off. Later investigation showed the man to be in bad physical condition, and he was removed to his boarding place. Telephone lines were not working and it was impossible to get medical attention to him, after it was realized that his life was in danger, although for several hours it did not appear that he was more affected than any man would be who had taken a quantity of alcohol. His death occurred early this morning, he never regaining consciousness.

When his condition was realized to be serious, citizens of Carnwath began to make inquiries as to where Mr. Stoker obtained the beverage which caused his illness, and it was found that he had drank a quantity of the popular substitute known as raisin wine. It is a concoction of raisins, sugar and yeast. The liquor of which he drank had been made for several days and was contained in an empty beer keg. He is said to have drank a large quantity of the brew.

This morning the unfortunate occurrence was reported to the District Attorney Arnold by telephone at Pittsburgh, and he directed the County Coroner to proceed to Carnwath and make a complete investigation of the cause leading up to his death. The result of the coroner's inquiry will no doubt furnish the District Attorney with material to proceed against the manufacturer of the liquor.

The victim of the home brew is survived by his aged father, James Stoker, of Clearfield and three sisters, Mrs. Andrew Heffman, of Ginter; Mrs. Thomas McQuillen, of Sterling and Mrs. Annie Jimeson, of Winburne.

Word was received here at noon today, that a foreign miner residing at Henderson, a mining village in Woodward township, had died yesterday as the result of a bout with a home brew concoction.

STOCKS SLIGHTLY LOWER

The stock market opened a little lower today. The rail strike tended to depress trading somewhat. United States Steel was off ⅛ at 105⅛, Marine 96¼ off ⅛, Mexican Petroleum at 200 off 1⅛, Baldwin at 143¼ off ⅛, Bethlehem B. at 99 off ⅛. Pressed Steel Car at 110, unchanged and Midvale at 48.

WOMEN'S CLUB NOTICE

The regular meeting of the Women's Club will be held at the High School on Tuesday evening, April 13th, at eight o'clock. Mrs. O'Laughlin will be in charge of the program. A12-2t-ch

The unfortunate occurrence at Carnwath early this morning in which a man lost his life emphasizes the dangers attendant to the drinking of home made liquors of any and all kinds. It is no less dangrous to consume liquor which is sold as real liquor. Real liquor is all impounded under the government seal and a moment's thought would convince any man that there is something wrong with any liquor offered for sale. The man who drinks liquor today is certainly taking his life into his own hands unless he gets it out of his own cellar and is quite sure he put it there himself before the long drouth.

Herbert Hoover, by his utterances on the platform and his statements to the press is giving evidence of his pure Americanism which after all is pure Republicanism. Speaking Saturday in Philadelphia he said "there are many, of whom I am one, who believe that the intervention of America's government in European problems must, except in a complete danger to civilization and our own democracy, be restrained to the application of our organized moral strength and to our charities."

What is sauce for the goose is not always sauce for the gander. Organized labor howled when the injunction was issued against the striking coal miners. Now organized labor howls for the injunction to be issued against the striking switchmen.

Creel (the guy that put the prop in propaganda) is accused of looting the U. S. Bulletin, the administration organ during the war. Didn't get much at that.

There is a great deal of significance in the visit of the committee of striking switchmen to the Department of Justice representative at Cleveland this afternoon. What they are after, primarily, is government intervention. Intervention would constitute recognition of the "runt" union. Once recognized it would be a formidable competitior of the regular unions. It is place and position that is most sought by its leaders rather than the amelioration of wrongs.

There is a great deal of merit in the recommendation of Doctor Finnegan that our three great colleges and universities now receiving state aid be put under one head and control. Had this been done twenty years ago it would have saved many thousands of dollars.

VENEZUELA HAS REVOLT ON HAND

WASHINGTON, April 10—Venezuela international turmoil, is described by information now reaching Washington as writhing under a dictatorship far more cruel and despotic than the notorious reign of Cipriano Castro. The dungeons are crammed with political prisoners whose sole crime was opposition to the military tyranny of General Gomez, who was vice president under Castro, and now, as commander-in-chief of the Venezuelan army, holds the country in a merciless grip.

Prisoners are said to be undergoing tortures which recall the horrors of the middle ages. They include public men of all sorts—generals, politicians, editors, scholars, everybody who by word or deed has dared to protest against tre Gomex czardom. Many of Gomez's opponents have fled the country to escape persecution.

The state department concedes conditions in Venezuela are "abnormal," but declines to discuss them. The Latin-American division of the Department has just recalled Stewart Johnson, secretary of the United States legation at Caracas. He is due in Washington about May 1, and Bainbridge Colby, secretary of state, hopes then to provide himself with first-hand information concerning a situation which is concededly bad and can easily become worse.

Gomez Retains Power

General Juan Vincente Gomez was elected president by the Venezuelan Congress on April 19, 1910, for the constitutional period of four years. His term of office expired in April, 1920, when the presidency, according to the constitution should have devolved upon the chief justice of the Venezuelan Federal court. That legal transfer of governing power was not observed. Instead, Gomez convened a revolutionary assembly at Caracas in February, 1914, which declared a provisional presidential period of one year ending on April 19, 1915.

STATEMENT OF OWNERSHIP

Statement of the ownership, management, circulation, etc., required by the Act of Congress of August 24, 1912, of Clearfield Progress, published daily except Sunday, at Clearfield Pennsylvania, for April 1st, 1920. State of Pennsylvania and county of Clearfield.

Before me, a Prothonotary in and for the State and county aforesaid, personally appeared R. S. Nightingale, who, having been duly sworn according to law, deposes and says that he is Advertising Manager of The Clearfield Progress, and that the following is to the best of his knowledge and belief, a true statement of the ownership, management (and, if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse side of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor and business managers are: Publisher Progressive Publishing Co., Clearfield, Pa., Editor, G. A. Stewart, Clearfield, Pa.; Managing Editor, G. A. Stewart, Clearfield, Pa. Business managers, none.

2. That the owners are: Progressive Publishing Co., Clearfield, Pa., R. H. Sommerville, Winburne, Pa.; G. A. Stewart, Clearfield, Pa.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent. or more of total amount of the bonds, mortgages, or other securities are: (If there are none, so state.) None.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 2,966.

R. S. NIGHTINGALE,
Advertising Manager.

Sworn to and subscribed before me this 7th day of April, 1920,
GEORGE W. RALSTON,
Prothonotary.

LAWRENCE McKENRICK

Lawrence McKenrick died at his home in Lawrence township, March 16, 1920, aged 23 years, 5 months and 24 days. He was the second son of Mr. and Mrs. James McKenrick, of Mt. Joy. He served in the army ten month, being with the Spruce Division at Vancouver, Washington. He was honorably discharged January 4, 1919, arriving home the day his youngest brother was buried. He belonged to the order of Red Men. He is survived by his father and mother and one brother, Andy, and four sisters, Mrs. H. H. Merat, of Sharon; Mrs. B. L. Quigley, of Grampian; Mrs. M. D. Wilkins and Mrs. M. T. Duckett, of Clearfield. He was a kind and good-hearted boy and will be sadly missed by his loved ones.

TROUT FISHING SEASON OPENS THURSDAY

The trout-fishing season opens Thursday, April 15th. Many "hard-boiled" disciples of old Izaak Walton are ready to tackle the trout on opening day.

The streams are high and last week's snow and continued cold weather, makes the outlook for opening day far from promising.

The weather man promises rain for the early part of the week and cold weather all week.

Ted Leitzinger spent Sunday with friends in St. Marys.

Prescription Facts

The chief fact is that of drug purity, quality and potency. The consideration of equal importance is that of accuracy and carefulness in compounding. Prescriptions put up by us certainly are put up right No druggist in this world can offer more. Here we guarantee it.

After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hangs on so long—the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say—"There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vick's VapoRub usually helps to lessen the violence of the coughing, but it is during convalescence that Vicks is most valuable.

Because Vicks acts locally by stimulation, thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying swallow a small bit the size of a pea.

Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended, since it is externally applied and so can be used often and freely without the slightest harmful effects.

Samples to new users will be sent free on request to the Vicks Chemical Company, 234 Broad Street, Greensboro, N. C.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

It has been rumored for more than a week that Dr. Erhard, now located at New Millport, was about to remove his family to Curwensville and that he had purchased the Abe Robinson property on Main street. To The Progress man Saturday, Mr. Robinson confirmed the sale. Whether Dr. Erhard has purchased this piece of real estate with the idea of coming to Curwensville to make his home, we are not in a position at this writing to state positively.

Last week the Curwensville correspondent to The Progress had occasion to note the fact that thieves had entered the store of the Curwensville Hardware company and removed goods to the amount of many dollars. The store of T. & R. K. Way had also been visited surreptiously and many valuables removed. Both robberies were reported to Chief Clark, who got busy right away and in a few hours had rounded up four youths, who live on the south side of Anderson Creek, one of whom was taken out of school by the Chief, and became so frightened he gave the whole show away, implicating three other companions. These boys, whose ages range from twelve to fifteen years, had a shanty in which the loot was stored. The culprits were taken before 'Squire Dale, who, after hearing the evidence, bound the boys over for a further hearing at juvenile court.

Members of borough council at last session advocated the purchase of a road tractor engine, claiming that the machine could be used for all necessary borough work, such as hauling the road machine, dump wagons, etc., thus saving the borough considerable money over and above what it paid out for team work. There is nothing like trying out the experiment.

On item appeared in the Curwensville column of The Progress on April 7th, advocating an Old Home Week for the town, instead of celebrating the national holiday, July 4th. The suggestion has been commented upon quite freely by different influential citizens, who seem to be heartily in favor of it. The President of the Industrial and Community Association informed the writer some weeks ago that one aim, among others of the association, was to observe every holiday of the year by offering some amusement for the working people and citizens of the community in general. Would it not be laudable for th association to take this Old Home Week proposition up and carry it through to a successful termination? We opine that such a week's entertainment would not only be one of pleasure to those who would "come to visit their old home town again," but the town itself would profit considerably by the gathering.

George Ardary, who resides on Bloomington avenue, was operated upon one day last week at the Clearfield Hospital for appendicitis, and is now home regaining something like his old time vigor.

Rev and Mrs. Biddle have so far recovered from their illness as to be able to leave for their home in Renova tomorrow.

Among recent real estate transfers taking place in Curwensville, we note that Annie E. Hudson et al conveyed to C. B. Dott a lot; consideration, $2,000. Earl J. Buck to W. M. Buck, lot; consideration, $150. W. M. Buck to Harry L. Wilson, lot; consideration, $2,000.

HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

WILL VISIT EUROPE

James Gargin, one of the pioneer citizens of DuBois, was in Clearfield today for the purpose of securing passports for himself and his good wife, who will sail from New York on Thursday next for Liverpool, England.

Mrs. Gargin has been in failing health for some time and will go to the famous Holly Well in Wales, for treatment, in the hope of restoring her health. Mr. and Mrs. Gargin are among the most respected and best known citizens of DuBois, and their host of friends unite in the hope that Mrs. Gargin may secure the relief she seeks. They expect to remain in Europe until next December.

NAMES OF DEAD WITHHELD

Only Relatives of 50,000 Soldiers to Be Advised of Disinterment

WASHINGTON, April 10—Reports on the disinterment of American dead overseas and information as to return of bodies to the United States will be made public periodically, but the names of the dead will not be given out, Secretary Baker said today.

"It is believed," Mr. Baker said, "that the publication of some 50,000 names of American dead to be returned would only recall the painful days of the war and further distress the bereaved families."

Next of kin will be advised as fast as the bodies are disinterred and sent to this country.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backachy or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

The Truth of the Matter.

Some men are enormously important. They regulate other men and boast of it. The truth is they are fools, and people are too polite to tell them about it.

NAME "BAYER" ON GENUINE ASPIRIN

For Colds, Headache, Pain, Neuralgia Toothache, Lumbago, Rheumatism

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

BLIND VETERAN DIES

John Shelow died at his home in Tyrone on Friday last. The deceased, who was a veteran of the civil war, and who lost his eyes in the service of his country, was one of Tyrone's best known citizens. He was a brother of Mrs. Abram Fleck, if this place, and had visited Clearfield a number of times. He was about 75 years of age.

Death also entered the home of Mr. and Mrs. Grant Shelow, of Tyrone, on Friday, one of their daughters passing away. Mr. Shelow is a nephew of the late John Shelow, and with his family, formerly resided in Curwensville.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

Find Value of Various Woods.

Investigations by the agricultural department show that one standard cord of well seasoned hickory, oak, beech, birch, hard maple, ash, elm, locust or cherry wood is approximately equal to one ton of anthracite coal. A cord and a half of soft maple or two cords of cedar, poplar or bass wood are required to give the same amount of heat. One cord of well-seasoned mixed wood equals at least one ton of average grade bituminous coal.

WILL TAKE MOVIES OF CLEARFIELD TO SHOW IN PITTSBURG

Motion pictures of Clearfield, including scenes in the business and residential sections of the city, will be made during the visit here of the Trade Extension Committee of the Pittsburgh Chamber of Commerce next month. Two reels will be made up from views taken in each of the 16 cities and towns in the itinerary, and following the trip the reels will be exhibited in the local "movie" theatres. These exhibitions will be made with the compliments of the Pittsburgh Chamber of Commerce.

The camera operator of the Industrial & Domestic Film Company will travel in advance of the special train and will "take" the scenes attending the arrival and reception of the visitors. While in town he will make a particular effort to include as many familiar faces of the local townspeoples as possible in his pictures. He will make street scenes, views of prominent buildings, large stores, churches, residences, etc.

"We keep these reels for permanent records of our trips," said Sam F. Sipe, chairman of publicity of the Trade Extension Committee. "It is a pleasure to send the pictures on a tour of the towns after our journey and the scenes on the screen recall pleasant memories. The films are then placed in the motion picture library of the Chamber of Commerce. Many years from the now the folks in the surrounding cities and towns, as well as ourselves, will have pleasure in looking backward to enjoy once more these joyful days of the Golden Rule in trade."

So great is the demand for space on the train that an additional car has been added. There are no retailers in the party. The Trade Extension manfacturers, importers, bankers, Party being composed entirely of large wholesalers and jobbers and professional men.

PHONE RATES RUN FROM 15 TO 30 PER CENT HIGHER

HARRISBURG, Pa., April 12.—The Huntingdon & Clearfield Telephone Company, furnishing service to portions of Clearfield, Indiana, Centre and Cambia counties, Pennsylvania, has filed a new tariff of rates with the Public Service Commission. The new tariff becomes effective on May 1st, 1920, and makes the following increases in existing rates:

The new tariff provides a graduated scale of rental charges based on the number of 'phones as follows:

Class "A," 751 to 1,500 'phones, average increase, 30 per cent.

Class "B," 101 to 750 'phones, average increase, 21 per cent.

Class "C," 1 to 100 'phones, average increase, 15 per cent.

For Multi-Party Line Rural Service the initial starting rate for service rendered outside of exchange area, is based on the lowest business and residence line; and a charge of $3.00 per annum will be made for each mile or fraction thereof outside of the exchange area.

Rates for intercommunicating equipment are increased 50 per cent.

The new tariff establishes a penalty of 25 cents per telephone per month, in addition to established rates, if account is not paid on or before the twentieth of each month; also, charge for connection of $1.00 if instruments are disconnected for non-payment of bill.

Literary Color Scheme.

An author who is "green" seldom succeeds in writing a book which is read.—London Blighty.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

30c and 60c jars; hospital size $2.50.

MUSTEROLE

Eight Helps For Housecleaning Time

If some kind person should come into your house around spring housecleaning time, wash and pack away all the winter blankets; clean the motor rugs that show grease spots after the winter's use; take out the summer curtains, do them up as you would, beautifully finished; and wash your feather pillows to a wonderful new fluffiness—wouldn't you be grateful?

Our modern laundry methods are at your service to relieve you of these and other details of spring houseclea ning. Bundle up your curtains, pillows, rugs and other heavier pieces today and send them to us.

LACE CURTAINS THAT LOOK LIKE NEW

We wash your lace curtains in fleecy suds, and pure soft water. Our modern laundry methods enable us to return your curtains exactly their original size, with scallops even, and all beautifully finished.

HOW ABOUT THOSE HEAVY RAG AND WOOLEN RUGS?

Are you going to struggle with the washing of those heavy rag and woolen rugs this spring? We can launder them for you. Save yourself, and send them to us.

HAVE YOUR BLANKETS WASHED BEFORE STORING

Of course, you will want to have your blankets washed. Why not let us do this laborious work for you? Our way of laundering them saves the nap, and keeps them soft and fleecy.

EIDERDOWN QUILTS LAUNDERED EXPERTLY

Our modern washing methods are ideal for your eiderdown quilts, which you will naturally want cleaned before storing. Here is another bit of heavy work that you will find it economical to have us do for you.

YOUR FEATHER PILLOWS MADE LIGHT AND DOWNY

Feather pillows washed by our specialized methods are soft and downy after their bath in rich suds and drying in clean warm air currents. Put new life in your old pillows by having us wash them our laundry way.

DRESS UP YOUR CAR IN FRESH COVERS

You can send your motor rugs to us also, to be washed free of the past season's grime and grease. We have special equipment for handling these extra weighty things.

AND THOSE MOTOR RUGS?

This is the time for clean automobile covers. Before you place them on your car again for the season, send these cumbersome pieces to us to be freshly laundered.

LET US WASH YOUR MOPS

Everything else gets washed at housecleaning time, so don't forget that we wash heavy O'Cedar and woolen mops. Bundle them up, and our driver will call.

Clearfield Laundry

AMUSEMENTS

NO DIFFERENCE IN PASSIONS OF SOCIETY DEBUTANTES AND DAUGHTERS OF UNDERWORLD

Young Woman Who Has Been Both Says Kipling Disclosed a Famous Truth about the "Colonel's Lady."

Rudyard Kipling, years ago, made a remark about the similarity of the passions of "the Colonel's lady and Judy O'Grady," but it was accepted by most people as being more or less of a poetical fancy. Norma Talmadge, the young star of "A Daughter of Two Worlds," in which she enacts a role more widely diverse than even the poet's contrast, is authority for the statement that Mr. Kipling should be hailed as a discoverer of a profound truth.

Fast Moving Action

In "A Daughter of Two Worlds," which will be shown at the Driggs Theatre on Tuesday and Wednesday, Miss Talmadge portrays the daughter of a notorious dive keeper. At first she is unmoral and uncultured, then she has the advantage of the training of an exclusive girls' school and becomes a favorite in the upper strata of the society world, then through discovery she is again the daughter of the dive keeper. All through it her every action is in keeping with her station in life.

"Every bit of portrayal in the whole picture," says Miss Talmadge, "is as natural as anything I have ever done. The course I pursue in the picture is the one I know I would pursue in real life if confronted with the same circumstances. Women will appreciate this when they see the picture, and men will have a better understanding of a woman's character when they have viewed it. In Jennie Malone, I think Le Roy Scott (author of the book) created one of the most nearly correct feminine characters I have ever heard of."

HENRY HARMON PLAYS ORIGINAL STAGE ROLE

Henry Harmon plays the title role in the Screen classics, Inc, production of "Old Lady 31," starring Emma Dunn, which is coming to the Liberty theatre tomorrow afternoon and evening. Mr. Harmon portrayed this part in Lee Kugel's stage production of the play with Miss Dunn, who enacts Angie for Metro in this famous Rachel Crothers comedy drama.

Mr. Harmon is a veteran of the stage. He made his debut with Joseph Hoffman, playing the sailor in "Rip Van Winkle." For fourteen years he was with Liebler and Company and for ten years with the late Charles Frohman. Mr. Harmon played the Russian refugee in "The Easiest Way," for five years, and was with the "Sherlock Holmes" company for three years.

"The Eternal City," "The Man from Mexico," "The Wife," "The Three Musketeers," "The Last Laugh," "Mrs. Leffingwell's Boots," "Shenandoah," and "Old Lady 31" are a few of the stage productions in which Mr. Harmon had had important parts.

It was through Nazimova that Mr. Harmon entered motion pictuers. He played the lighthouse keeper in "Out of the Fog," which was re-titled from "'Ception Shoals". He had played the role on the stage. Mr. Harmon also portrays the priest in Bert Lytell's new screen classic, Inc., production "The Right of Way,".

Mr. Harmon prefers the simple life of farming to that of acting. He has a large farm in Sullivan county, New York, and for the past few years has spent most of his time with the cows and chickens.

"OH, DADDY"

Kilroy & Britton's trademark, established for a number of years in a dozen memorable stage productions, stands for the best quality of artistry, brainy production and lavish embellishment. "Oh Daddy," their newest musical comedy offering, won enthusiastic endorsement last season in New York, Boston and Chicago. Now it is to be disclosed at the Driggs one night, Thursday, April 15th by the only company playing it and under personal direction of Kilroy & Britton. This entertainment is, from all accounts, so merry and melodious that everyone who loves to laugh and hear good music will find it fresh, captivating and different from the average musical show. Its authorship is gilt-edged, for it is by Richard C. Maddox and T. H Willhite, a duo that brings new ideas, new methods, new melodies craftily appealing to the popular tastes The action has pep, ginger and a punch. Order seats early.

Mrs J. W Patchin is ill at her home on West Sixth avenue.

YOUNG GIRLS MADE STRONG

Mrs. Boyd Tells How Her Daughter Benefited by Taking Lydia E. Pinkham's Vegetable Compound.

Danville, Ill.—"My daughter was very delicate and we thought we could not raise her. She was troubled with irregularity and she was not able to go to school. For a year we gave her all kinds of tonics but to no good. One day one of your little books was thrown on our porch and I saw what Lydia E Pinkham's Vegetable Compound had done for others and what it might do for her. Now she is getting fat and goes to school every day. You can tell every mother what the Vegetable Compound has done for my daughter."—Mrs J. H Boyd, 1002 N Jackson St., Danville Ill.

If every girl who suffers as Miss Boyd did, or from irregularities, painful periods, backache, headache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

For special advice women are asked to write the Lydia E Pinkham Medicine Co, Lynn, Mass The result of forty years' experience is at your service.

POPULAR BRISBIN GIRL DIES

Miss Helen Gould, a popular Brisbin girl, died at the Philipsburg Hospital on Saturday last, aged 21 years.

The deceased was the charming and accomplished daughter of Mr. and Mrs. T. V. Gould, of Brisbin, and was well known in Clearfield. She caught cold while attending an Easter Monday night ball, and spinal meningitis developed. A specialist was summoned and every effort was made to combat the dread disease, but death would not be denied.

A Mad Car?

Myself and family were out for our usual Sunday ride. We were driving along a fairly smooth road, which gradually became more rough. Finally little Rose, who had become tired of being bumped about, exclaimed: "Oh, mamma, has the car lost its temper?" —Exchange.

CONRAD—HOLLOBAUGH

G. Stephen Conrad and Miss Frances Hollobaugh, both of Munson, were united in marriage Saturday afternoon, at Trinity Methodist parsonage, by the Rev. W. W. Hartman, the ring ceremony being used in tying the nuptial knot.

Mr. Conrad is a stenographer in the employ of the Atlantic Refining company, of Philipsburg, and in the same town Miss Hollobaugh holds a stenographic position with the Penn Public Service corporation.

Both the contracting parties being accustomed to taking dictation, we believe that the proverbial family jar will be noticeably absent in their home life. Both are popular young people and have a host of friends who extend congratulations and best wishes.

VOLUME XIV — THE CLEARFIELD PROGRESS, CLEARFIELD, PA. MONDAY EVENING APRIL, 12, 1920 — NUMBER 231

SWITCHMENS STRIKE FASTLY SPREADING IN EAST PHILADELPHIA YARDS BADLY TIED UP THIS P. M.

MUCH DEPENDS ON ACTION OF ELEVEN BIG BROTHERHOODS

BIG MEETING AT KANSAS CITY TO FORMULATE PLAN OF CAMPAIGN AGAINST TROUBLESOME RUNT UNION

GOMPERS PREDICTS ITS FAILURE

PHILADELPHIA, Pa., April 12—The Pensylvania Lines were badly handicapped here today when several thousand switchmen and yardmen joined the ranks of the "rebel" union. Estimates of the number of men on strike in this district run as high as fifteen thousand but railroad officials put it at seven thousand. No trains left on the New York division this morning until eight o'clock and then four trains were made up into one. Traffic is virtually suspended.

CLEVELAND, Ohio, April 12—A committee of the striking switchmen called upon Bliss Morton of the Department of Justice here today to lay their case before him. The spokesman declared that "the strikers did not wish to attempt to intimidate the government but that they did wish the government to intervene in the strike simply in order that wages be advanced to meet living conditions. The committee declared that the striking men would abide by any adjustment made by the government. The spokesman said "this is not a strike. It is just a case of thousands of men quitting their jobs because of their inability to get a living wage."

The strike of railroad employees continues to spread in the East today. Reports from the west show it to be at a standstill Only Cleveland, however, reports men returning to work. Officials of eleven big railroad unions will meet at Kansas City today to decide on what action to take to "down" the rebel union of switchmen. There is a possibility of surrender to the radicals and endorsement of their strike. A careful canvass indicates that there is no immediate danger of a food shortage any place owing to the strike. The fuel situation is more serious. The big steel mills at Youngstown, Gary and Buffalo are at a standstill. Both passenger and freight traffic is crippled in the New York district There is very little freight moving.

Thirty-six thousand men on strike is the most conservative and accurate estimate available today. This number includes the marine men, firemen and a few enginemen who are on strike in the New York district. About New York is the only district in which firemen and enginemen are out. The Pitcairn and Wilkinsburg yards of the Pennsylvania lines are affected today.

CLEVELAND, Ohio, April 12—President Lee of one of the "big four" brotherhoods and Samuel Gompers, President of the American Federation of Labor both predicted today that the switchmen strike will break up soon. They based their predictions on reports from loyal union men from all over the nation.

WASHINGTON, D. C., April 12—Possibly overnment action to end the railroad strike apparently centered on President Wilson today. Secretary Tumulty, after a long conference with the President at the White House today telephoned to Attorney General Palmer in regard to the conversation.

Chairman Cummins, of the Senate Interstate Commerce Committee and the Vice President of the Brotherhood of Railway Trainmen had a long conference this afternoon relative to the strike situation. Cummins announced that he had been assured that the wage board set up under the Esch-Cummins law would be appointed either today or tomorrow. He will call a meeting of the Interstate Commerce Committee at once to go over the problem and is expected to offer an amendment to the law which will permit the wage board to go into session at Washington at once. The present law provides for the sessions of the wage board to be held at Chicago.

CHICAGO, Ill., April 12—The great railroad strike is today at a cross roads. Officials of eleven big railroad unions are to meet at Kansas City today to decide on a policy in dealing with the unusual situation created by the action of a "rebel" union which is making inroads on regular organized labor. The brotherhoods must fight shoulder to shoulder with the railroads or surrender to the radicals who have formed a new union The officials of the eleven big unions who will meet today will either decide to enforce the rule that no strikes be called before having the sanction of the brotherhoods and line up solidly against the new organization or declare for 'one big union" of all rail employees and thus bow to the will of the radicals The success of the strike in the east where it has gained so many new adherents will have its effect on the more timid ones in other sections and result in even more men being out by the break of another day.

STATE OF SONORA BREAKS WITH THE CARRANZA GOVEM'T

AGUA PRIETA, Sonora, Mexico, April 10—The Sonora state congress convened in secret session at Hermosillo today, repudiated the Mexican central government and adopted a reslution declaring the state would take steps to resist any invasion by troops or infringement of state rights attempted by the Carranza government, according to Fernando Mendoza, who made the announcement here today.

NOGALES, Sonora, April 10—Governor de La Huerta, of Sonora, in a telegram to General Salvador Alverdo here today said:

"In view of the replies of President Carranza to the governor and congress of the state of Sonora it was decided to suspend relations with the central government, until such a time as the causes leading to the determination had ceased to exist."

The state authorities of Sonora had called upon Presiident Carranza to halt the mobilization of federal troops within Sonora They charged the Mexican president was plotting to establish a military dictatorship in the state and take over the state government. It had been openly charged that was a plot against the presidential candidacy of General Obregon. Carranza answered the state authorities that he had no such intention, but that the troops were being ordered to Sonora for the general welfare of the county

Sonora state authorities immediately set about preparing to seize the customs house and other Mexican federal properties here after they were advised of the state breaking relations with Carranza.

"HEMLOCK SPECIAL" WOULD MAKE EVEN A PREACHER SWEAR

Traveling on the "hemlock special" over the Tyrone and Clearfield branch of the Pennsylvania railroad is fast becoming a nightmare and the service we are getting, from one cause and another, is a positive detriment to Clearfield.

The train due here at 6.45 Saturday evening was more than three hours late, while the 11 20 did not get here until about 4 o'clock. If, as the patent medicine man says, "there is a reason," for the love of Mike let us find the dern thing and have it remedied.

That "hemlock special" has passed from the joke to the painful period, with the traveling public in that state which one of the Vanderbilt's consigned them to long ago. However, if that be so, and we gues it is, we beclamned if we see how the fellow responsible for the service and lack of accomodations we are having foisted upon us gets any pleasure out of the proceedings

Last week one day the smoker on the "special" caught fire coming out of Curwensville. Some fellow had dropped a cigarette stub in a corner and the "dud" soon had a merry little blaze going as the train bumped along into Clearfield. The ancient time-cured hemlock burned and snapped like Bob Ingersoll's coffin, after he had safely sailed across the Styx and slid down the shoot into furnace No. 1. The conductor succeeded in dousing the flames with water from the drinking tank just before North Clearfield station was reached and the car is still in service

This private ownership business as we understand it on this branch and with traveling on this "hemlock special" is what Gen. Sherman understood war to be, and its hell enough, we'll say.

CARNWATH MINE IS READY FOR LARGE TONNAGE INCREASE

After five years of extensive development and preparation, the Carnwath Coal Company is now in shape to greatly increase their output at the mine known as Carnwath No 3.

A fine body of the "B" seam of coal lies back of the town of Carnwath, to reach which it was necessary to tunnel through about three quarters of a mile of almost solid rock. This work, together with the installation of modern machinery and primary development, has occupied the attention of Superintendent James Gray for about five years. The mine has its own electric power plant with electric haulage system and cutting machines. Several houses are available for the increased number of miners who will be employed and the town of Carnwath promises to be even greater than it is in another year. The average heighth of coal is about four feet, but runs higher in some places. The best of working conditions prevail and this mine will be a beehive of industry this summer. Having some houses ready for new employees, the mine is in an excellent shape to take care of new men.

JUMPS FROM MAIL PLANE: BREAKS HIS LEGS AND ARMS

Two former army aviators in the aerial mail service, when flying at a height of 1700 feet, escaped death yesterday afternoon when their plane caught fire. The accident happened near Kresson, Camden county.

Richard W. Wright, twenty-three years old, of Cleveland, O., had both arms and both legs broken when he jumped from the wing of the blazing machine 200 feet from earth.

March C. Hogue, twenty-three years old, of Portland, Ore., pilot, stuck to his post and escaped injury He was thrown from his seat as the machine glided into a tree The blazing plane set fire to the surrounding woods

The Camden police ambulance was called, and the injured aviator rushed to Cooper hospital, Camden. The doctors hold little hope for recovery.

Both Wright and Hogue were aviators in the army during the war. Wright brought down three German planes. He was wounded during a flight and was regarded as a skilled operator. He joined the aerial mail service but a few days ago.

SCHOOL HEAD URGES STATE UNIVERSITY

Secommends Merger of U. of P., State College and Plit To Get Broader Results

ASKS BETTER PAY FOR TEACHER

The creation of a large state university which would meet the demands for higher education was urged Saturday by Dr. Thomas E. Finegan, superintendent of the State Bureau of Public Instruction, at the final session of the Schoolmen's week convention at the University of Pennsylvania.

Doctor Finegan pointed out that such a plan might be carried out by the amalgamation of the University of Pennsylvania, the University of Pittsburgh and State College. Those colleges would retain their individuality but would be under a central administration.

"Such an amalgamation," said the speaker, "would simplify the appropriation of the state Legislature toward the support of those institution and insure a uniformity of purpose and curriculum throughout the state.

"Millions of dollars have been given to those colleges by the state legislature. Though separated in management each is pursuing very largely the same courses of training with the exception perhaps of State College in its agricultural departments.

The Direction of Funds

"A central board of control would be able, though its knowledge of and acquaintance with the needs of each unit in the great university plan, to direct more advantageously the expenditure of the funds appropriated to each. In like manner it would impose on the state a responsibility that could not be evaded in a matter of support, thus guaranteeing more liberal financial support than now is accorded.

"I do not mean by this to underestimate the great good of the universities of this state as now in existence. They are excellent, but they have not the means with which adequately to meet the demand for education that is forced upon them. The possible other plan of the erection of a single state university would alleviate the situation also, but not to the same extent as consolidation."

Wants "Real" Superintendents

Speaking directly to the superintendents of districts Doctor Finegan said: "You superintendents should be real and genuine. You are not You are becoming administrative. It is not your fault. The state should provide sufficient funds so that you could take up your work in the right way and leave the administration to others

"I want to see many changes made in the state educational system. I want to see a minimum salary law, with a fixed initial salary and a specified annual increment such as will make the teaching profession attractive to those who are worthy of good pay. We do not need a figure on those who will not be good teachers, for we can accept the hypotheses that they will drop out of the work.

"The state today is contributing only half what it should to educational work. It is up to us therefore to undertake to organize a campaign to educate the people as to what is really needed in state legislation, that they in turn may get behind their representatives and instruct them to pass the right kind of school laws.

"It is humiliating for a teacher to have to go each year before a local board and beg for the bare sustenance on which to live. It is up to the taxpayers, who are the real gainers by the schools to get behind the teachers and see they get a living salary.

Gift of $1200 in Gold

A surprise was given Doctor Finegan just before he made his address. Dr. H. S. Weet. of Rochester, N. Y., representing the New York state teachers, was called to the platform. There he eulogized the work done by Doctor Finegan in New York and told how sorry the teachers were to have him leave.

"We have tried for some time to tell you this," Doctor Weet said to Doctor Finegan, "but, unfortunately, because of your sickness we were unable to get to you before. However, we wish to present you with this little box as a token of our esteem."

The box was opened and to his amazement Doctor Finegan found that therein lay sixty bright and shining $20 gold pieces.

Speaking along the line of reforms in the state system, Dr. Harlan Updegraff, professor of educational administration at the University of Pennsylvania, pointed out the need for a state teachers' certificate law.

Among the resolutions adopted by the convention, accepted by Doctor Finegan to be incorporated in the general state program, the following points were emphasized:

A larger general appropriation and a more equitable distribution.

That the state superintendent prepare at the earliest possible moment a comprehensive plan for a statewide educational campaign.

That the Legislature of 1921 be asked to appropriate funds to meet the transportation obligations of the rural communities.

"DRYS" ACTIVE IN KEEPING CONGRESS DRY FOR KEEPS

PHILADELPHIA, April 12. (United Press.)—The campaign by the Anti-Saloon League of Pennsylvania "to prevent the capture of the next Congress by the west,' was inaugurated here by Rev. Homer W. Tope, D. D., satte superintendent of the League, who spoke at the Fourth Baptist church. During the next few weeks, he said, addresses will be made in different sections of the state by Captain Richmond P. Hobson, Colonel Dan Morgan Smith, Sam W. Small of Georgia, Clinton N. Howard, of Rochester, N. Y., Congressman Barkely, of Kentucky and Senator Wesley Jones of Washington state.

Born, to Mr. and Mrs. Guy Hunter (nee Vinnie Myers) at their home in Jersey Shore, a ten pound girl.

Judge Bell has returned from holding court in Pittsburgh last week.

T. F. Boyle, of Buffalo, N. Y., spent the week end with friends here.

MICKIE SAYS

HOME BREW IS DEATH AGENT AT CARNWATH

Home-made Liquor Derived From Raisins, Sugar and Yeast Is Fatal To Isaac Stoker

HENDERSON MAN ALSO VICTIM

The death of Isaac Stoker, aged 59, of Carnwath, which occurred during the early hours this morning, will be the subject of a coroner's inquiry and possibly action on the part of the District Attorney.

Mr. Stoker, who has been employed in the mines of Carnwath, is a widower who made his home at the residence of Alex. Hynd. Yesterday afternoon he is said to have been invited to the house of another resident of the village, where he was offered and accepted several drinks of home made liquor. Spending some time at this home he made his way out onto the street where another resident, seeing that he was intoxicated, removed him to a nearby shanty, believing that the effects of whatever liquor he had would soon wear off. Later investigation showed the man to be in bad physical condition, and he was removed to his boarding place. Telephone lines were not working and it was impossible to get medical attention to him, after it was realized that his life was in danger, although for several hours it did not appear that he was more affected than any man would be who had taken a quantity of alcohol. His death occurred early this morning, he never regaining consciousness.

When his condition was realized to be serious, citizens of Carnwath began to make inquiries as to where Mr. Stoker obtained the beverage which caused his illness, and it was found that he had drank a quantity of the popular substitute known as raisin wine. It is a concoction of raisins, sugar and yeast. The liquor of which he drank had been made for several days and was contained in an empty beer keg. He is said to have drank a large quantity of the brew.

This morning the unfortunate occurrence was reported to the District Attorney Arnold by telephone at Pittsburgh, and he directed the County Coroner to proceed to Carnwath and make a complete investigation of the cause leading up to his death. The result of the coroner's inquiry will no doubt furnish the District Attorney with material to proceed against the manufacturer of the liquor.

The victim of the home brew is survived by his aged father, James Stoker, of Clearfield and three sisters, Mrs. Andrew Heffman, of Ginter; Mrs. Thomas McQuillen, of Sterling and Mrs. Annie Jimeson, of Winburne.

Word was received here at noon today, that a foreign miner residing at Henderson, a mining village in Woodward township, had died yesterday as the result of a bout with a home brew concoction.

STOCKS SLIGHTLY LOWER

The stock market opened a little lower today. The rail strike tended to depress trading somewhat. United States Steel was off ⅛ at 105⅛, Marine 96¼ off ⅛, Mexican Petroleum at 200 off 1⅛, Baldwin at 143¼ off ⅛, Bethlehem B. at 99 off ⅛. Pressed Steel Car at 110, unchanged and Midvale at 48.

WOMEN'S CLUB NOTICE

The regular meeting of the Women's Club will be held at the High School on Tuesday evening, April 13th, at eight o'clock. Mrs. O'Laughlin will be in charge of the program. A12-2t-ch

The unfortunate occurrence at Carnwath early this morning in which a man lost his life emphasizes the dangers attendant to the drinking of home made liquors of any and all kinds. It is no less dangrous to consume liquor which is sold as real liquor. Real liquor is all impounded under the government seal and a moment's thought would convince any man that there is something wrong with any liquor offered for sale. The man who drinks liquor today is certainly taking his life into his own hands unless he gets it out of his own cellar and is quite sure he put it there himself before the long drouth.

Herbert Hoover, by his utterances on the platform and his statements to the press is giving evidence of his pure Americanism which after all is pure Republicanism. Speaking Saturday in Philadelphia he said "there are many, of whom I am one, who believe that the intervention of America's government in European problems must, except in a complete danger to civilization and our own democracy, be restrained to the application of our organized moral strength and to our charities."

What is sauce for the goose is not always sauce for the gander. Organized labor howled when the injunction was issued against the striking coal miners. Now organized labor howls for the injunction to be issued against the striking switchmen.

Creel (the guy that put the prop in propaganda) is accused of looting the U. S. Bulletin, the administration organ during the war. Didn't get much at that.

There is a great deal of significance in the visit of the committee of striking switchmen to the Department of Justice representative at Cleveland this afternoon. What they are after, primarily, is government intervention. Intervention would constitute recognition of the "runt" union. Once recognized it would be a formidable competitior of the regular unions. It is place and position that is most sought by its leaders rather than the amelioration of wrongs.

There is a great deal of merit in the recommendation of Doctor Finnegan that our three great colleges and universities now receiving state aid be put under one head and control. Had this been done twenty years ago it would have saved many thousands of dollars.

VENEZUELA HAS REVOLT ON HAND

WASHINGTON, April 10—Venezuela international turmoil, is described by information now reaching Washington as writhing under a dictatorship far more cruel and despotic than the notorious reign of Cipriano Castro. The dungeons are crammed with political prisoners whose sole crime was opposition to the military tyranny of General Gomez, who was vice president under Castro, and now, as commander-in-chief of the Venezuelan army, holds the country in a merciless grip.

Prisoners are said to be undergoing tortures which recall the horrors of the middle ages. They include public men of all sorts—generals, politicians, editors, scholars, everybody who by word or deed has dared to protest against tre Gomex czardom. Many of Gomez's opponents have fled the country to escape persecution.

The state department concedes conditions in Venezuela are "abnormal," but declines to discuss them. The Latin-American division of the Department has just recalled Stewart Johnson, secretary of the United States legation at Caracas. He is due in Washington about May 1, and Bainbridge Colby, secretary of state, hopes then to provide himself with first-hand information concerning a situation which is concededly bad and can easily become worse.

Gomez Retains Power

General Juan Vincente Gomez was elected president by the Venezuelan Congress on April 19, 1910, for the constitutional period of four years. His term of office expired in April, 1920, when the presidency, according to the constitution should have devolved upon the chief justice of the Venezuelan Federal court. That legal transfer of governing power was not observed. Instead, Gomez convened a revolutionary assembly at Caracas in February, 1914, which declared a provisional presidential period of one year ending on April 19, 1915.

The Treasures of Carthage.

Carthage, one of the most ancient cities known to man, has seen hordes of trophy hunters of all nationalities, for the location has proved a most fruitful one in the discovery of rich treasures and jewels hidden beneath the soil.

Ford

THE UNIVERSAL CAR

The Ford car can well be called the "peoples car," because there are more than 3,000,000 of them in daily operation. That is about four to one of the nearest follower in the motor car industry. This would not be so if the Ford car had not for sixteen years proven its superiority in service, in durability, and in the low cost for operation and maintenance; this would not be so if the Ford car was not so easy to understand, so simple in construction that anybody and everybody can safely drive it. Let us have your order for one now to avoid delay in delivery.

STATEMENT OF OWNERSHIP

Statement of the ownership, management, circulation, etc., required by the Act of Congress of August 24, 1912, of Clearfield Progress, published daily except Sunday, at Clearfield Pennsylvania, for April 1st, 1920. State of Pennsylvania and county of Clearfield.

Before me, a Prothonotary in and for the State and county aforesaid, personally appeared R. S. Nightingale, who, having been duly sworn according to law, deposes and says that he is Advertising Manager of The Clearfield Progress, and that the following is to the best of his knowledge and belief, a true statement of the ownership, management (and, if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse side of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor and business managers are: Publisher Progressive Publishing Co., Clearfield, Pa., Editor, G. A. Stewart, Clearfield, Pa.; Managing Editor, G. A. Stewart, Clearfield, Pa. Business managers, none.

2. That the owners are: Progressive Publishing Co., Clearfield, Pa., R. H. Sommerville, Winburne, Pa.; G. A. Stewart, Clearfield, Pa.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent. or more of total amount of the bonds, mortgages, or other securities are: (If there are none, so state.) None.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 2,966.

R. S. NIGHTINGALE,
Advertising Manager.

Sworn to and subscribed before me this 7th day of April, 1920,
GEORGE W. RALSTON,
Prothonotary.

LAWRENCE McKENRICK

Lawrence McKenrick died at his home in Lawrence township, March 16, 1920, aged 23 years, 5 months and 24 days. He was the second son of Mr. and Mrs. James McKenrick, of Mt. Joy. He served in the army ten month, being with the Spruce Division at Vancouver, Washington. He was honorably discharged January 4, 1919, arriving home the day his youngest brother was buried. He belonged to the order of Red Men. He is survived by his father and mother and one brother, Andy, and four sisters, Mrs. H. H. Merat, of Sharon; Mrs. B. L. Quigley, of Grampian; Mrs. M. D. Wilkins and Mrs. M. T. Duckett, of Clearfield. He was a kind and good-hearted boy and will be sadly missed by his loved ones.

TROUT FISHING SEASON OPENS THURSDAY

The trout-fishing season opens Thursday, April 15th. Many "hard-boiled" disciples of old Izaak Walton are ready to tackle the trout on opening day.

The streams are high and last week's snow and continued cold weather, makes the outlook for opening day far from promising.

The weather man promises rain for the early part of the week and cold weather all week.

Ted Leitzinger spent Sunday with friends in St. Marys.

Prescription Facts

The chief fact is that of drug purity, quality and potency. The consideration of equal importance is that of accuracy and carefulness in compounding. Prescriptions put up by us certainly are put up right No druggist in this world can offer more. Here we guarantee it.

After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hangs on so long—the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say—"There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vick's VapoRub usually helps to lessen the violence of the coughing, but it is during convalescence that Vicks is most valuable.

Because Vicks acts locally by stimulation, thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying swallow a small bit the size of a pea.

Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended, since it is externally applied and so can be used often and freely without the slightest harmful effects.

Samples to new users will be sent free on request to the Vicks Chemical Company, 234 Broad Street, Greensboro, N. C.

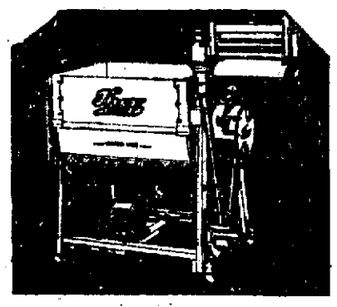
Wash and Wring at the same time with a Thor



Electric Washing Machine

WHICH NOW HAS THE

All-Metal Swinging Wringer

While the machine is washing the clothes, the wringer can be at work also. You simply run the clothes from the cylinder through the wringer into the rinse water—put a new lot of clothes into the cylinder and while these are being washed, you are wringing the first batch through the rinse and blueing.

It's amazing how exceedingly simple a terrifying washing becomes when the Thor Machine takes hold of it and how swiftly and sweetly it can be done.

$10 DOWN

and a system of easy monthly payments is the plan we have adopted to enable you to put one of these wonderful machines in your home before next washday

Telephone us and we will send a machine to your home at once, or if you prefer it, drop into the store tomorrow and let us show you just what can be done with a Thor.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

It has been rumored for more than a week that Dr. Erhard, now located at New Millport, was about to remove his family to Curwensville and that he had purchased the Abe Robinson property on Main street. To The Progress man Saturday, Mr. Robinson confirmed the sale. Whether Dr. Erhard has purchased this piece of real estate with the idea of coming to Curwensville to make his home, we are not in a position at this writing to state positively.

Last week the Curwensville correspondent to The Progress had occasion to note the fact that thieves had entered the store of the Curwensville Hardware company and removed goods to the amount of many dollars. The store of T. & R. K. Way had also been visited surreptiously and many valuables removed. Both robberies were reported to Chief Clark, who got busy right away and in a few hours had rounded up four youths, who live on the south side of Anderson Creek, one of whom was taken out of school by the Chief, and became so frightened he gave the whole show away, implicating three other companions. These boys, whose ages range from twelve to fifteen years, had a shanty in which the loot was stored. The culprits were taken before 'Squire Dale, who, after hearing the evidence, bound the boys over for a further hearing at juvenile court.

Members of borough council at last session advocated the purchase of a road tractor engine, claiming that the machine could be used for all necessary borough work, such as hauling the road machine, dump wagons, etc., thus saving the borough considerable money over and above what it paid out for team work. There is nothing like trying out the experiment.

On item appeared in the Curwensville column of The Progress on April 7th, advocating an Old Home Week for the town, instead of celebrating the national holiday, July 4th. The suggestion has been commented upon quite freely by different influential citizens, who seem to be heartily in favor of it. The President of the Industrial and Community Association informed the writer some weeks ago that one aim, among others of the association, was to observe every holiday of the year by offering some amusement for the working people and citizens of the community in general. Would it not be laudable for th association to take this Old Home Week proposition up and carry it through to a successful termination? We opine that such a week's entertainment would not only be one of pleasure to those who would "come to visit their old home town again," but the town itself would profit considerably by the gathering.

George Ardary, who resides on Bloomington avenue, was operated upon one day last week at the Clearfield Hospital for appendicitis, and is now home regaining something like his old time vigor.

Rev and Mrs. Biddle have so far recovered from their illness as to be able to leave for their home in Renova tomorrow.

Among recent real estate transfers taking place in Curwensville, we note that Annie E. Hudson et al conveyed to C. B. Dott a lot; consideration, $2,000. Earl J. Buck to W. M. Buck, lot; consideration, $150. W. M. Buck to Harry L. Wilson, lot; consideration, $2,000.

HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

WILL VISIT EUROPE

James Gargin, one of the pioneer citizens of DuBois, was in Clearfield today for the purpose of securing passports for himself and his good wife, who will sail from New York on Thursday next for Liverpool, England.

Mrs. Gargin has been in failing health for some time and will go to the famous Holly Well in Wales, for treatment, in the hope of restoring her health. Mr. and Mrs. Gargin are among the most respected and best known citizens of DuBois, and their host of friends unite in the hope that Mrs. Gargin may secure the relief she seeks. They expect to remain in Europe until next December.

NAMES OF DEAD WITHHELD

Only Relatives of 50,000 Soldiers to Be Advised of Disinterment

WASHINGTON, April 10—Reports on the disinterment of American dead overseas and information as to return of bodies to the United States will be made public periodically, but the names of the dead will not be given out, Secretary Baker said today.

"It is believed," Mr. Baker said, "that the publication of some 50,000 names of American dead to be returned would only recall the painful days of the war and further distress the bereaved families."

Next of kin will be advised as fast as the bodies are disinterred and sent to this country.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backachy or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

The Truth of the Matter.

Some men are enormously important. They regulate other men and boast of it. The truth is they are fools, and people are too polite to tell them about it.

NAME "BAYER" ON GENUINE ASPIRIN

For Colds, Headache, Pain, Neuralgia Toothache, Lumbago, Rheumatism

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

BLIND VETERAN DIES

John Shelow died at his home in Tyrone on Friday last. The deceased, who was a veteran of the civil war, and who lost his eyes in the service of his country, was one of Tyrone's best known citizens. He was a brother of Mrs. Abram Fleck, if this place, and had visited Clearfield a number of times. He was about 75 years of age.

Death also entered the home of Mr. and Mrs. Grant Shelow, of Tyrone, on Friday, one of their daughters passing away. Mr. Shelow is a nephew of the late John Shelow, and with his family, formerly resided in Curwensville.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

Find Value of Various Woods.

Investigations by the agricultural department show that one standard cord of well seasoned hickory, oak, beech, birch, hard maple, ash, elm, locust or cherry wood is approximately equal to one ton of anthracite coal. A cord and a half of soft maple or two cords of cedar, poplar or bass wood are required to give the same amount of heat. One cord of well-seasoned mixed wood equals at least one ton of average grade bituminous coal.

Apply Sulphur As Told When Your Skin Breaks Out.

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho-Sulphur The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Mentho-Sulphur and use it like cold cream.

Anything Better Than Unbelief.

I would rather dwell in the dim fog of superstition than in air rarefied to nothing by the air pump of unbelief.—Jean Paul Richter.

Shipments Getting Bad

Due to traffic congestion shipments of produce and fish will be disturbed.

However we will use every effort to keep something coming to you every day. We will endeavor to get produce from points where traffic conditions will allow.

THORN BROS.

Did You Ever Wonder Why

A photographer pays from fifty to one hundred and fifty dollars for a lens? He pays that because he wants the best pictures possible to obtain. How much more important is it that your eyes should have the correct and best of lenses? We do not attempt to see how cheap we can fit your eyes, but how well we can make you see.

Our clinical examination is different than you have been used to, providing better results.

If your eyes fail, see our optometrist.

HOWE'S
Jeweler and Optometrists

WILL TAKE MOVIES OF CLEARFIELD TO SHOW IN PITTSBURG

Motion pictures of Clearfield, including scenes in the business and residential sections of the city, will be made during the visit here of the Trade Extension Committee of the Pittsburgh Chamber of Commerce next month. Two reels will be made up from views taken in each of the 16 cities and towns in the itinerary, and following the trip the reels will be exhibited in the local "movie" theatres. These exhibitions will be made with the compliments of the Pittsburgh Chamber of Commerce.

The camera operator of the Industrial & Domestic Film Company will travel in advance of the special train and will "take" the scenes attending the arrival and reception of the visitors. While in town he will make a particular effort to include as many familiar faces of the local townspeoples as possible in his pictures. He will make street scenes, views of prominent buildings, large stores, churches, residences, etc.

"We keep these reels for permanent records of our trips," said Sam F. Sipe, chairman of publicity of the Trade Extension Committee. "It is a pleasure to send the pictures on a tour of the towns after our journey and the scenes on the screen recall pleasant memories. The films are then placed in the motion picture library of the Chamber of Commerce. Many years from the now the folks in the surrounding cities and towns, as well as ourselves, will have pleasure in looking backward to enjoy once more these joyful days of the Golden Rule in trade."

So great is the demand for space on the train that an additional car has been added. There are no retailers in the party. The Trade Extension manfacturers, importers, bankers, Party being composed entirely of large wholesalers and jobbers and professional men.

PHONE RATES RUN FROM 15 TO 30 PER CENT HIGHER

HARRISBURG, Pa., April 12.—The Huntingdon & Clearfield Telephone Company, furnishing service to portions of Clearfield, Indiana, Centre and Cambia counties, Pennsylvania, has filed a new tariff of rates with the Public Service Commission. The new tariff becomes effective on May 1st, 1920, and makes the following increases in existing rates:

The new tariff provides a graduated scale of rental charges based on the number of 'phones as follows:

Class "A," 751 to 1,500 'phones, average increase, 30 per cent.

Class "B," 101 to 750 'phones, average increase, 21 per cent.

Class "C," 1 to 100 'phones, average increase, 15 per cent.

For Multi-Party Line Rural Service the initial starting rate for service rendered outside of exchange area, is based on the lowest business and residence line; and a charge of $3.00 per annum will be made for each mile or fraction thereof outside of the exchange area.

Rates for intercommunicating equipment are increased 50 per cent.

The new tariff establishes a penalty of 25 cents per telephone per month, in addition to established rates, if account is not paid on or before the twentieth of each month; also, charge for connection of $1.00 if instruments are disconnected for non-payment of bill.

Literary Color Scheme.

An author who is "green" seldom succeeds in writing a book which is read.—London Blighty.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

30c and 60c jars; hospital size $2.50.

MUSTEROLE

Eight Helps For Housecleaning Time

If some kind person should come into your house around spring housecleaning time, wash and pack away all the winter blankets; clean the motor rugs that show grease spots after the winter's use; take out the summer curtains, do them up as you would, beautifully finished; and wash your feather pillows to a wonderful new fluffiness—wouldn't you be grateful?

Our modern laundry methods are at your service to relieve you of these and other details of spring houseclea ning. Bundle up your curtains, pillows, rugs and other heavier pieces today and send them to us.

LACE CURTAINS THAT LOOK LIKE NEW

We wash your lace curtains in fleecy suds, and pure soft water. Our modern laundry methods enable us to return your curtains exactly their original size, with scallops even, and all beautifully finished.

HOW ABOUT THOSE HEAVY RAG AND WOOLEN RUGS?

Are you going to struggle with the washing of those heavy rag and woolen rugs this spring? We can launder them for you. Save yourself, and send them to us.

HAVE YOUR BLANKETS WASHED BEFORE STORING

Of course, you will want to have your blankets washed. Why not let us do this laborious work for you? Our way of laundering them saves the nap, and keeps them soft and fleecy.

EIDERDOWN QUILTS LAUNDERED EXPERTLY

Our modern washing methods are ideal for your eiderdown quilts, which you will naturally want cleaned before storing. Here is another bit of heavy work that you will find it economical to have us do for you.

YOUR FEATHER PILLOWS MADE LIGHT AND DOWNY

Feather pillows washed by our specialized methods are soft and downy after their bath in rich suds and drying in clean warm air currents. Put new life in your old pillows by having us wash them our laundry way.

DRESS UP YOUR CAR IN FRESH COVERS

You can send your motor rugs to us also, to be washed free of the past season's grime and grease. We have special equipment for handling these extra weighty things.

AND THOSE MOTOR RUGS?

This is the time for clean automobile covers. Before you place them on your car again for the season, send these cumbersome pieces to us to be freshly laundered.

LET US WASH YOUR MOPS

Everything else gets washed at housecleaning time, so don't forget that we wash heavy O'Cedar and woolen mops. Bundle them up, and our driver will call.

Clearfield Laundry

CUT THIS OUT—IT IS WORTH MONEY

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache and sluggish bowels.

AMUSEMENTS

NO DIFFERENCE IN PASSIONS OF SOCIETY DEBUTANTES AND DAUGHTERS OF UNDERWORLD

Young Woman Who Has Been Both Says Kipling Disclosed a Famous Truth about the "Colonel's Lady."

Rudyard Kipling, years ago, made a remark about the similarity of the passions of "the Colonel's lady and Judy O'Grady," but it was accepted by most people as being more or less of a poetical fancy. Norma Talmadge, the young star of "A Daughter of Two Worlds," in which she enacts a role more widely diverse than even the poet's contrast, is authority for the statement that Mr. Kipling should be hailed as a discoverer of a profound truth.

Fast Moving Action

In "A Daughter of Two Worlds," which will be shown at the Driggs Theatre on Tuesday and Wednesday, Miss Talmadge portrays the daughter of a notorious dive keeper. At first she is unmoral and uncultured, then she has the advantage of the training of an exclusive girls' school and becomes a favorite in the upper strata of the society world, then through discovery she is again the daughter of the dive keeper. All through it her every action is in keeping with her station in life.

"Every bit of portrayal in the whole picture," says Miss Talmadge, "is as natural as anything I have ever done. The course I pursue in the picture is the one I know I would pursue in real life if confronted with the same circumstances. Women will appreciate this when they see the picture, and men will have a better understanding of a woman's character when they have viewed it. In Jennie Malone, I think Le Roy Scott (author of the book) created one of the most nearly correct feminine characters I have ever heard of."

HENRY HARMON PLAYS ORIGINAL STAGE ROLE

Henry Harmon plays the title role in the Screen classics, Inc, production of "Old Lady 31," starring Emma Dunn, which is coming to the Liberty theatre tomorrow afternoon and evening. Mr. Harmon portrayed this part in Lee Kugel's stage production of the play with Miss Dunn, who enacts Angie for Metro in this famous Rachel Crothers comedy drama.

Mr. Harmon is a veteran of the stage. He made his debut with Joseph Hoffman, playing the sailor in "Rip Van Winkle." For fourteen years he was with Liebler and Company and for ten years with the late Charles Frohman. Mr. Harmon played the Russian refugee in "The Easiest Way," for five years, and was with the "Sherlock Holmes" company for three years.

"The Eternal City," "The Man from Mexico," "The Wife," "The Three Musketeers," "The Last Laugh," "Mrs. Leffingwell's Boots," "Shenandoah," and "Old Lady 31" are a few of the stage productions in which Mr. Harmon had had important parts.

It was through Nazimova that Mr. Harmon entered motion pictuers. He played the lighthouse keeper in "Out of the Fog," which was re-titled from "'Ception Shoals". He had played the role on the stage. Mr. Harmon also portrays the priest in Bert Lytell's new screen classic, Inc., production "The Right of Way,".

Mr. Harmon prefers the simple life of farming to that of acting. He has a large farm in Sullivan county, New York, and for the past few years has spent most of his time with the cows and chickens.

"OH, DADDY"

Kilroy & Britton's trademark, established for a number of years in a dozen memorable stage productions, stands for the best quality of artistry, brainy production and lavish embellishment. "Oh Daddy," their newest musical comedy offering, won enthusiastic endorsement last season in New York, Boston and Chicago. Now it is to be disclosed at the Driggs one night, Thursday, April 15th by the only company playing it and under personal direction of Kilroy & Britton. This entertainment is, from all accounts, so merry and melodious that everyone who loves to laugh and hear good music will find it fresh, captivating and different from the average musical show. Its authorship is gilt-edged, for it is by Richard C. Maddox and T. H Willhite, a duo that brings new ideas, new methods, new melodies craftily appealing to the popular tastes The action has pep, ginger and a punch. Order seats early.

Mrs J. W Patchin is ill at her home on West Sixth avenue.

YOUNG GIRLS MADE STRONG

Mrs. Boyd Tells How Her Daughter Benefited by Taking Lydia E. Pinkham's Vegetable Compound.

Danville, Ill.—"My daughter was very delicate and we thought we could not raise her. She was troubled with irregularity and she was not able to go to school. For a year we gave her all kinds of tonics but to no good. One day one of your little books was thrown on our porch and I saw what Lydia E Pinkham's Vegetable Compound had done for others and what it might do for her. Now she is getting fat and goes to school every day. You can tell every mother what the Vegetable Compound has done for my daughter."—Mrs J. H Boyd, 1002 N Jackson St., Danville Ill.

If every girl who suffers as Miss Boyd did, or from irregularities, painful periods, backache, headache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

For special advice women are asked to write the Lydia E Pinkham Medicine Co, Lynn, Mass The result of forty years' experience is at your service.

Sale Continues For One Week, Only Starting Tomorrow.

POPULAR BRISBIN GIRL DIES

Miss Helen Gould, a popular Brisbin girl, died at the Philipsburg Hospital on Saturday last, aged 21 years.

The deceased was the charming and accomplished daughter of Mr. and Mrs. T. V. Gould, of Brisbin, and was well known in Clearfield. She caught cold while attending an Easter Monday night ball, and spinal meningitis developed. A specialist was summoned and every effort was made to combat the dread disease, but death would not be denied.

A Mad Car?

Myself and family were out for our usual Sunday ride. We were driving along a fairly smooth road, which gradually became more rough. Finally little Rose, who had become tired of being bumped about, exclaimed: "Oh, mamma, has the car lost its temper?" —Exchange.

CONRAD—HOLLOBAUGH

G. Stephen Conrad and Miss Frances Hollobaugh, both of Munson, were united in marriage Saturday afternoon, at Trinity Methodist parsonage, by the Rev. W. W. Hartman, the ring ceremony being used in tying the nuptial knot.

Mr. Conrad is a stenographer in the employ of the Atlantic Refining company, of Philipsburg, and in the same town Miss Hollobaugh holds a stenographic position with the Penn Public Service corporation.

Both the contracting parties being accustomed to taking dictation, we believe that the proverbial family jar will be noticeably absent in their home life. Both are popular young people and have a host of friends who extend congratulations and best wishes.
